1. Good morning world.
- 2.
3. Last night was eventful.
- 4.
5. At 10:15 i went to sleep. At 12:00 I was awakened by the whooshing sounds of mace and turmoil of a riot in our dorm.
- 6.
7. An inmate had requested an ARP. An ARP is a form for reporting personnel to the Lt and Warden for their misconduct. He had refused, and the female Sgt, sgt Williams, responded with macing the entire dorm.
- 8.
9. People walking around with towels on their like burkas in the middle east. #Flashbacks.
- 10.
11. I just laid in my rack. Unscathed by the events. The good free people of bastrop with badges came in, some with cannisters, some with foggers, and a couple with tazers.
- 12.
13. They took the microwave (Oh No!! LoL)
- 14.
15. Lotz of people in lockdown today.
- 16.
17. But. During the wonderful abuse of power, sc notice me and if he did, he paid me no att

sheriff's for the most part kept their backs

18.

19. If i didn't know any better, they seemed to almost have formed a barrier around my rack from...
The others.

20.

21. That's how violent I'm considered, with their backs to me, while they dealt with the real
problems.

22.

23. _____

24.

25. Last night's conversation with Sarah sparked a moment of intrigue with myself. I had turned in
the tablet before charging.

26.

27. ACIO had been arrested by Interpol because of JediSecurity. What did I do? I saved America from
an impending EMP attack, used space force, cyber command, and interpol to detain the terrorist,
who had taken illegal control of old KGB satellites that had a stolen EMP cannon strapped to it,
stolen from a foreign power i will not disclose here.

28.

29. 2 weeks later i was illegally detained, and 3 weeks later, the FBI was investigating damages
caused from sabotage of electric substations by shootings. These people that did that were
extremists, and they are the opposing factions to the people who I caught using the meters, also
extremists.

30.

31. Caught in the middle of a war.

32.

33. Cyber war is real.

34.

35. My animals are dead. No one knows but a few what I've done. Sarah knows, she watched live.

36.

37. Some one needs go inform the commandant, snag my Twitter feed from elon. @jedisec proof is
there. Know who else has proof? Vova. Vladimir Putin. He had a trace on my Twitter feeder after
#OpRussia (not like I actually hacked anything, but collected everything of his, and had
reported similar incidents to his Russian ministry of defense).

38.

39. Capturing ACIO also isolated the 3rd party attacker in the Ukraine. This alone is how Zelensky
knows me.

40.

41. But since, I've been made out to be a repeat offender completely out of my mind, crazy as all
hell.

42.

43. She reminded me in a text this morning that it's not grandiose, or some unreal delusion of
paranoia.

- 44.
45. I saved America and it shit on me.
- 46.
47. Over and over and over. Domestic terrorism, caught in the middle, for the sovereignty of our country.
- 48.
49. Good times
- 50.
51. Good luck America It'll never happen again until you fix it And some of this, You cant fix.
- 52.
53. You can repair the windows and mow the grass. But Corky and Zeus.. You can't fix them The stolen gear? The stolen websites? The stolen books? The stolen artifacts?
- 54.
55. You can't replace those either.
- 56.
57. Good job.
